

OTTOPUR Cleaner

Technical Datasheet

Characteristics:	- Fat replenishing cleaning spray						
Fields of application:	- Cleaning of used applicator guns - Very versatile use due to spray head supplied						
Important information:	Easy coupling and uncoupling of the cleaner onto the dosing gun by means of dosing gun adapter; longer product life of the applicator gun adapter due to fat replenishing substances. Cured PU foam-residues can only be removed mechanically. Attention! OTTOPUR Cleaner can solubilize or discolour substrates (e.g. varnish, paint, plastics or textiles). Initial tests on hidden spot are recommended! Do not use as cleaner for building parts or building materials if those are to be foamed, sealed or bonded afterwards. Fat replenishing substances can cause contaminations and marks on all substrates, also on clothing. Please note: Can is under pressure. Protect from UV-radiation and temperatures over +50 °C. Never remove the can by using force.						
Technical properties:	Shelf life at 23 °C / 50 % RAH in original, unopened packagings 24 months						
Application information:	<ol style="list-style-type: none"> 1. Can be used as cleaning spray (using the red spray button) in order to clean adapter ring and nozzle from uncured PU-foam. 2. Clean nozzle and adapter ring with cloth (e. g. paper). 3. Screw OTTOPUR Cleaner onto the gun. 4. Push trigger shortly to rinse. If contaminations are extreme repeat rinsing several times. 5. Once the gun is filled with OTTOPUR Cleaner leave 30 seconds to work; then repeat point 4. 6. Unscrew OTTOPUR Cleaner. <p>Because of the variety of possible influences while processing and applying customer tests are required. Please observe the recommended shelf life which is printed on the packaging.</p>						
Packaging:	Please see the packagings available from stock in our current General Catalogue for Building Products.

Colours:	kF						
Safety precautions:	Please observe the material safety data sheet.						
Disposal:	Information about disposal: Please refer to the material safety data sheet.						

Warranty information:

All information in this publication is based on our current technical knowledge and experiences. However, since conditions and methods of use and application of our products are beyond our control, we suggest you to test the product before final use. Information given in this technical data sheet and explanations of OTTO - CHEMIE in connection with this technical data sheet (e. g. service description, reference to DIN regulations, etc.) is not to be seen as a warranty. Warranties require a separate written declaration of OTTO – CHEMIE to prove their validity. The characteristics stated in this data sheet define the characteristics of the article broadly and concludingly. Suggestions of use are not to be taken as confirmation of the appropriateness for the recommended intended use. We reserve the right to alter the product adjusting it according to technical progress and new developments. We are at your disposal both for inquiries as well as specific application problems. If a governmental approval or clearance is necessary for the application of our products, the user is responsible for the obtainment of such. Our recommendations do not excuse the user from the obligation to take into consideration the possibility of infringement of third parties' rights and - if necessary – resolving it. For the rest our general terms and conditions apply, in particular regarding a possible liability for defects. If you happen to not have our general terms and conditions at hand, we will gladly send them to you upon request.
